

Greetings!

We are thrilled to let you know that as DEVCON celebrates its 10th Anniversary, DEVCON SUMMIT, the Biggest Developer Conference in the Philippines is coming back this June 22 at the SMX Convention Center, SM Aura Premier, Taguig City.

This year's summit will be arriving with the theme: "**THE FUTURE OF JOBS, EMBRACING INDUSTRY 4.0**", where we will be featuring talks and workshops centered around the idea of re-skilling our workforce today to match how automation would change the way we work in the future.

Few of the topics to be tackled include *Accelerating Software Information* with the use of DevOps and Cloud technology; *Automating Business Operations* with Artificial Intelligence and Robotics and; *Customer Centricity Imperative* through Analytics and Big Data.

DEVCON SUMMIT is organized by **Developers Connect Philippines (DevCon)**, a non-profit organization which aims to promote the "IT Pinoy Talent" mainly by providing a unique venue for IT students, educators, professionals and enthusiasts to *Sync, Support and Succeed*.

In this regard, we are cordially inviting your academe to take part on this opportunity to connect with leading tech practitioners and to learn the latest innovations in the industry.

For more details, you may check our event website at <https://summit.devcon.ph/> or send us an email via [mailbox@devcon.ph](mailto:mailbox@devcon.ph).
