

Greetings!

Since 2013, Developers Connect Philippines has been organizing DEVCON SUMMIT, the Biggest Developer Conference in the Philippines, where tech practitioners and enthusiasts get the opportunity to expand their professional bandwidth as well as to be in the know of the latest trends in the industry.

This year's summit arrives with the theme: "**THE FUTURE OF JOBS, EMBRACING INDUSTRY 4.0**", featuring talks and workshops centered around the idea of re-skilling our workforce today to match how automation would change the way we work in the future.

In line with this, I'm asking for your support to allow me represent our company at the DEVCON SUMMIT 2019, happening on June 22, 2019, at the SMX Convention Center - SM Aura Premier, Taguig City.

What I can get out of attending DEVCON SUMMIT 2019:

1. **TECHNOLOGY TAKEAWAYS**

With the line-up of topics for this year's summit, it will help me maximize my potentials and build valuable experience with the innovative insights, strategies, and tools shared by some of the notable IT professionals in the industry.

2. **CONNECT WITH TRENDS**

DEVCON SUMMIT 2019 will get me acquainted with the emerging technologies in and out of the country which include Blockchain, Analytics & Artificial Intelligence, DevOps, and Cyber Security. We can advance our company's productivity by being updated in these latest trends and its implementation.

3. **COLLABORATION OPPORTUNITY**

This summit will give me the opportunity to engage with a bunch of Pinoy developers, exhibitors, and even investors who can/might be our potential partners/new employees.

With the demand for innovations that keep growing by the hour, it all the more calls for a push to break free from the traditional rules of the game and rather step it up not only to achieve

professional development but also to contribute to the global progress — this brings me back to why I believe it's important for me to attend DEVCON SUMMIT 2019.

Hoping for your favorable response on this matter.

Thank you! We can buy tickets at <http://summit.devcon.ph>

Sincerely yours,
